March 8, 1984.

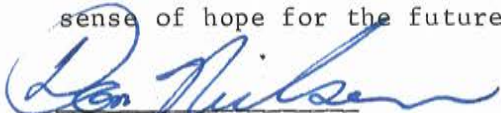

To The People of Sparwood,
Some 40 years hence.

Greetings:

We the undersigned have been given the opportunity to address you and to wish you well. It is an idea of the developers of the renovation and extention of the Greenwood Mall and the Municipal Government. That might tell you something.

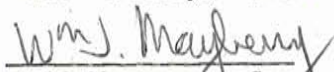

We seem to be coping with George Orwell's 1984 , however the two year old recession and the current poor coal market has us abit unsettled and the fear of nuclear war is never far from us. Prime Minister Trudeau has resigned and the Conservatives can't wait to elect Mulroney.

You no doubt have even larger concerns and we trust an even greater sense of hope for the future.
